Application Recommendations

Apply 1-2 lbs. per acre at planting. Mix in a minimum of 10 gallons of water for every 1 lb. of Bioblend. On first application let sit for 24 hours before applying.

Apply 1/2 lb. per acre every 4 weeks or as needed. Mix in a minimum of 10 gallons of water for every 1 lb. of Bioblend.

Bioblend may be applied through conventional methods but not limited to soil application, water run, shanking in or hydroponically.

Check for compatibility by mixing products in a clear jar and agitating vigorously for at least 30 seconds. Then visually observe for precipitate.
