Application Recommendations

Huma Connect 2 can be applied to all crops including fruits, vegetables, trees, vines, flowers, ornamentals, turf, grain and other row crops.

Application rates and frequency are dependent upon soil and climate conditions present. Typical application rates range from 1 to 20 lbs per crop per acre per season.

Huma Connect 2 may be applied through conventional methods but not limited to foliar spray, soil application, water run, shanking in or hydroponically.

Check for compatibility by mixing products in a clear jar and agitating vigorously for at least 30 seconds. Then visually observe for precipitate

CAUTION: Keep out of the reach of children. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush skin or eyes with plenty of fresh, clean water for at least 15 minutes.
